MESSAGE

Message

Praasad Group of Companies started its journey with RMG export in 1994 and made its foray into real estate and construction business in the year 1996. Operating for over two decades, the Group eventually achieved a prime position in the forefront of the real estate and construction industry of Bangladesh. The success of this journey can be attributed to the dedicated and concerted efforts of our technical personnel and professionals, combined with overwhelming cooperation and goodwill from all our friends and business associates at home and abroad.

On behalf of the Board of Directors and on my part as the Chairman of Praasad Group of Companies, I take this privilege to present before you a general portrait of the companies, depicting glimpses of our contribution in real estate sector and construction activities as well in Bangladesh's economic development.

We believe that our relationship with all our business associates and government and semi government authorities will grow further and will contribute further to nation building activities.

Abashan Nirman Limited ..

Overview:

A real estate company established in 2009 to mitigate the residential problems throughout the country. Praasad Group of Companies realized the demand of Middle Class people of Dhaka City as well as the demand throughout the country, and subsequently formed this venture to serve the Upper Middle Class and Middle Class people for their apartment and housing demand.

The demand for constructing of residential projects on small area of land such, as on 5-7 Katha, is increasing both on vacant land and land with existing building (old fashioned or old age). Due to cost of constructions and other related hazards in construction, the middle and upper class people are becoming highly dependent on the developers to make their dreams come true.

Abashan Nirman is aimed to cater this support to this class people and thus to contribute in mitigating the housing problem of Dhaka dwellers as well as for the nation. In this case the apartment sizes are expected within 720 sft to 1440 sft to make it affordable to the target group.
